HOMEOWNERSHIP PROGRAM

What is it?

It's often called the "American Dream" the dream is often owning a home or condominium, close to shopping and work. Although homeownership is at a record high, the dream of purchasing one's own home isn't one that most people with low-income think about for very long. It's often an impossible dream, but the dream has come true for some and we want to make it a reality for others.

The ability to use Section 8 assistance should prove to be a key resource in purchasing a home for low-income persons. Buying one's own home is never easy. Financial and credit checks have to be made; homeownership counseling classes taken, and paperwork that never seems to end must be completed. There are realtors, lenders, inspectors, appraisers, and a myriad of others who actively participate in the process.

The Springfield Housing Authority will assist you in addressing these issues. Buying a home is obviously not for fainthearted or the impatient. Hopefully this brochure will serve as an effective road for those who want to take the path to homeownership.

The Springfield Housing Authority will assist (10) families for a period not exceeding (15) fifteen years by making subsidy payments towards your mortgage.
